

Who is Save Babies Through Screening?

Founded in 1998, Save Babies Through Screening Foundation is a national, nonprofit organization whose mission is to prevent mental retardation, physical disabilities and early death in babies, resulting from disorders detectable through the newborn screening test. Because newborn screening recommendations are not up to date, Save Babies Through Screening Foundation educates parents and pediatric healthcare providers.

Save Babies Through Screening Foundation was founded by the parents of Tyler Wayne Mize.

Tyler Wayne Mize
May 1, 1998 – May 10, 1998

Tyler Wayne Mize was born May 1, 1998. Tyler appeared to be perfectly healthy, and was discharged from the hospital. Tyler had galactosemia, a serious inability to process milk. Tyler had the routine newborn screening test for galactosemia; however, it was 15 days before his newborn screening test results became known. Unfortunately, *God gave him only 9 days to live untreated.* Simply giving Tyler a special formula, and possibly an antibiotic for a short time, would have saved his life.
